

Physician Partners of America

PAIN RELIEF GROUP

RODOLFO GARI, M.D., MBA PAIN MANAGEMENT PHYSICIAN FOUNDER

Rodolfo Gari, M.D., MBA, founded Physician Partners of America in 2013 after practicing medicine and seeking a healthcare system that benefits both patients and doctors.

Dr. Gari earned his medical degree at the University of Miami Miller School of Medicine in Florida in 1985. His medical training included an internship in internal medicine at Orlando Regional Medical Center and a residency in anesthesiology and pain management at Jackson Memorial Hospital in Miami. He practiced as both an anesthesiologist and pain management physician in Tampa before founding his own pain management practice, Tampa Pain Relief Center. In 1999, he built his own surgery center to practice interventional pain management in a way that benefited both physicians and their patients.

After practicing medicine for a decade, Dr. Gari earned a Master's Degree in Business Administration from the University of South Florida College of Business,

finishing at the top of his class. He went on to found Surgery Partners, Tampa Pain Relief Center and Anesthesiology Professional Services, a group of medical practices with multiple offices throughout Florida.

After selling the business, Dr. Gari created Texas Pain Relief Group, the first affiliate of Physician Partners of America. The company has grown from a single clinic to nearly 30, and from three employees to more than 500.

A dedicated philanthropist, Dr. Rodolfo Gari supports a number of national and local charitable endeavors including The Children's Home, an organization in Tampa serving children who have suffered abuse, neglect, or abandonment. Dr. Gari also contributes to the work of Susan G. Komen for the Cure, various Catholic charities, and the Berkeley Preparatory School, as well as volunteering with Habitat for Humanity International and Metropolitan Ministries.
